

Cardinals in Motion Play

Steenrod Elementary School

Main Goal

Add a playground for all students and unrestricted access to the playground for the community

Research Findings

270

students and community members impacted

34%

of students are low SES

18

inch volta spinner height for easy transfers

Having an accessible playground for all students is important in improving physical activity during the school day. Making the playground accessible at all times unrestricted allows for families in the community to participate in physical activity.

Environmental Changes

Created physical and observable change to the built and social environment in Steenrod Elementary School

ActiveWV 2030 Physical Activity Plan Sector:

Education

Building Capacity

Stronger Communities

The playground has accommodations allowing those with disabilities opportunity of play

Playground has unrestricted access to all community members for free use

The Bottom Line

Steenrod Elementary School has brought important change to their community. Not only are they promoting physical activity, but they are also making play accessible for everyone. They continue to promote change and positively impact their students and community.
