

Outdoor Pickleball Courts

Southern Jackson County Community Foundation / Greene Center

Main Goal

Install pickleball courts to the local park

Research Findings

150

Community members impacted by added activity

PICKLEBALL COURT

2

2 new pickleball courts added

High

Population of the elderly community

Pickleball is a great sport that can be played at all different levels. It helps keep people active in a fun and engaging way. Putting pickleball courts in will bring the community more together and encourage them to be more physically active.

Environmental Changes

Created physical and observable change to the built and social environment at the Greene Center

ActiveWV 2030 Physical Activity Plan Sector:

Sport

Building Capacity

Stronger Communities

Pickleball is a low impact-low intensity sport allowing all ages and abilities to participate

The courts are **free** for all community members to utilize

The Bottom Line

Pickleball has become an uprising sport in communities. It gets people active and brings them together. It also is a sport that can be played by any age and allows everyone to participate. The courts will be up and running this winter. Learn more at <https://thegreenecenter.org/classes-%26-activities>
